Helicopter Flight Training
FAR Part 61

J.R. AVIATION, INC.

(877) FLY-3668 www.jraviation.com

Growing Helicopter Pilot Needs and Salaries

The ability to find qualified Helicopter pilots is becoming more and more difficult. Below is a chart from a survey done in the Spring of 2016 on www.payscale.com. The need for trained helicopter pilots grows everyday especially with the retirement of so many Vietnam Era and Gulf War pilots. It proves that now is the best time to go into Helicopter training, build up your time and move on to a very promising career in the Helicopter Industry.

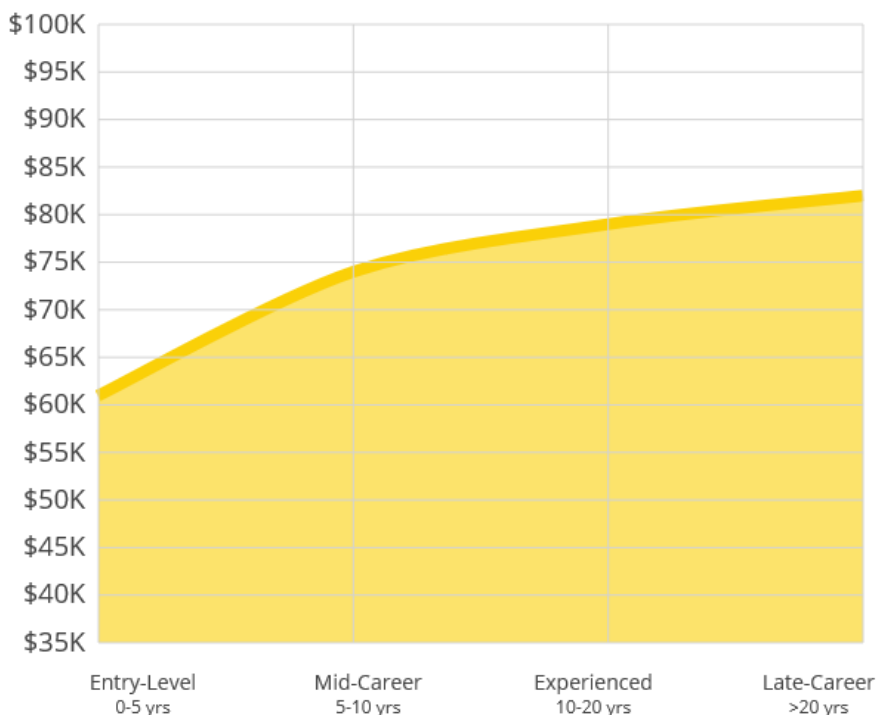

The beginning salary ranges are starting salaries if you meet the certificate and experience requirements the employer is requesting. This is not for a brand new Commercial Pilots with 150 hours of flight time experience. The majority of pilots will progress by attaining their Certified Flight Instructor (CFI) Rating and building flight time while teaching others. This is a great way to build time and improve your piloting skills. A great amount of experience comes from training someone else.

Another good way to make yourself more desirable over other CFI's or Pilots is to obtain your Instrument and CFII (CFI for Instrument) Ratings. These Ratings are highly coveted by Commercial Employers; in addition some companies who request their pilot have an ATP will accept a pilot who is CFII with lots of Instrument experience instead.

Helicopter Pilots note just a narrow range of job skills. Fortunate pilots who hold INSTRUCTOR Endorsements command much higher paychecks, scoring salaries 21 percent above average. Skills that pay less than market rate include Emergency Medical Services.

The average salary for Helicopter Pilots in the United States is \$73K per year, and pay runs especially high in Jacksonville, where the average is \$108K. Helicopter Pilots will also find cushy salaries in New York (+32 percent), San Diego (+30 percent), Lafayette (+30 percent), and Savannah (+16 percent). The pay range of helicopter pilots range between \$50,084 - \$117,156. The numbers in this rundown were provided by PayScale's salary survey participants.

Pay by Experience Level for Helicopter Pilots

Entry level positions usually involve some flight instruction, and typical compensation ranges from \$35,000 to \$45,000 (based on geographic location) for Helicopter pilots with less than 500 flight hours.

The following examples are just a few additional Helicopter pilot job descriptions:

- | | |
|---------------------------|--------------------|
| Flight Instructor | Marine Patrol |
| Sightseeing Trips | Security Patrol |
| Fish Spotting | Aerial Photography |
| Executive | News Reports |
| Off-Shore Oil | Powerline Patrol |
| Aerial Fire Fighting | Aerial Application |
| External Load | Law Enforcement |
| Motion Pictures | Timber Harvester |
| Geological/Seismic | Forestry |
| Charter Bank Pick-Up | Aerial Videography |
| Emergency Medical Service | |

Upon completion of the Professional Helicopter Pilot Course, J.R. Aviation will assist students with employment searches. The Helicopter pilot market is as vibrant as ever, even with the recent decline in the airline industry. The majority of new helicopter pilots will come from commercial flight schools like J.R. Aviation.

COURSE OUTLINES

PPL 100 Private Pilot Rotorcraft/Helicopter	PPL 110 Private Pilot Add-On Rotorcraft/Helicopter	CPL 200 Commercial Pilot Rotorcraft/Helicopter	CPL 210 Commercial Add-On Rotorcraft/Helicopter
<p>The Private Pilot License is for individuals who plan to fly for personal business and/or pleasure, and not engage in work for compensation or hire.</p> <p>Eligibility requirements: To be eligible for a Private Pilot Certificate, a person must:</p> <ol style="list-style-type: none"> (1) Be at least 17 years of age. (2) Be able to read, speak, write, and understand the English language, or have such operating limitations placed on his/her pilot certificate as are necessary for safety. (3) Hold at least a valid third-class medical certificate. (4) Pass a FAA written, oral, and flight examination. (5) Obtain a minimum of 40 flight hours. <p>FAA MINIMUM.....40 HOURS Dual20 hours Solo.....10 hours *Solo or Dual10 Hours Ground School (Approx 10 hours)</p> <ul style="list-style-type: none"> • FAA Written Exam • Books & Supplies • FAA Examiner Fee • 3rd Class Medical • FAA Flight Test <p>Average course completion time: 4 to 6 weeks</p> <p>MINIMUM COST \$16,150* *Minimum cost is based on FAA minimums for flight time. Actual cost will depend on student performance. The additional 10 hours of flight time can be either solo or dual, depending on student performance.</p>	<p>If a pilot already holds a private fixed-wing license, and would like a private helicopter license, this is considered an additional aircraft rating, rotorcraft/helicopter. You are adding on to your existing pilot license. Pilots <u>will not</u> be required to take an additional written exam. International pilots, who have never taken a FAA written exam, will be required to do so, or a restriction will be placed on their FAA license.</p> <p>FAA MINIMUM.....30 HOURS Dual20 hours Solo.....10 hours Ground School (Approx 10 hours)</p> <ul style="list-style-type: none"> • Books & Supplies • FAA Examiner Fee • FAA Flight Test <p>Average course completion time: 3 to 6 weeks</p> <p>MINIMUM COST \$12,220* *Minimum cost is based on FAA minimums for flight time. Actual cost will depend on student performance.</p>	<p>The Commercial License is for students planning to engage in pilot tasks for compensation or hire. The commercial training includes requirements in addition to the requirements for PPL 100.</p> <p>Eligibility requirements: To be eligible for a Commercial Pilot Certificate, a person must:</p> <ol style="list-style-type: none"> (1) Be at least 18 years of age. (2) Be able to read, speak, write, and understand the English language, or have such operating limitations placed on his/her pilot certificate as are necessary for safety. (3) Hold at least a valid second-class medical certificate. (4) Pass a FAA written, oral, and flight examination. (5) Obtain a minimum of 150 flight hours. <p>FAA MINIMUM...150 HOURS (private through commercial) Dual40 hours Solo/PIC110 hours Ground School (Approx 10 hours)</p> <ul style="list-style-type: none"> • FAA Written Exam • Books & Supplies • FAA Examiner Fee • 2nd Class Medical • FAA Flight Test <p>Average course completion time: 3 to 6 months</p> <p>MINIMUM COST \$52,125* *Minimum cost is based on FAA minimums for flight time. Actual cost will depend on student performance.</p>	<p>If a pilot holds a Private Fixed-Wing License, and wants a Commercial Helicopter License, this is considered an additional aircraft rating, rotorcraft/helicopter. You are adding to your Commercial Fixed-Wing Rating, pilots <u>will not</u> be required to take an additional written exam. International pilots, who have never taken a FAA written exam, will be required to do so, or a restriction will be placed on their FAA license.</p> <p>FAA MINIMUM.....55 HOURS Dual20 hours Dual IFR5 hours Solo.....30 hours Ground School (Approx 10 hours)</p> <ul style="list-style-type: none"> • Books & Supplies • FAA Examiner Fee • FAA Flight Test <p>Average course completion time: 4 to 6 weeks</p> <p>MINIMUM COST \$21,650* *Minimum cost is based on FAA minimums for flight time. (2) Hold an Airplane Instrument Rating. (3) Pass a FAA oral and flight examination. (4) Obtain 15 hours of instrument helicopter instruction. <p>FAA MINIMUM.....15 HOURS Dual15 Hours Ground School (Approx 10 Hours)</p> <ul style="list-style-type: none"> • Books & Supplies • FAA Examiner Fee • FAA Flight Test <p>Average course completion time: 1 to 3 weeks</p> <p>MINIMUM COST \$12,600* *Minimum cost is based on FAA minimums for flight time. Actual cost will depend on student performance.</p>	<p>As a low time pilot, the best way to continue your education and build flight time is to become a Certified Flight Instructor.</p> <p>FAA Requirements: To be eligible for a Certified Flight Instructor Rating a person must:</p> <ol style="list-style-type: none"> (1) Hold either a Commercial Helicopter Certificate or Airline Transport Pilot Certificate. (2) Pass a FAA written, oral, and flight examination. (3) Obtain at least 3 hours of helicopter instruction and any necessary as to be proficient to pass the FAA flight examination. <p>FAA MINIMUM..... 3 HOURS DualApprox 10 Hours Ground School (Approx 15 Hours)</p> <ul style="list-style-type: none"> • Two-part FAA Written Exam • Books & Supplies • FAA Examiner Fee • FAA Flight Test <p>Average course completion time: 3 to 5 weeks</p> <p>MINIMUM COST \$6,425* *Minimum cost is based on average minimums for flight time. Actual cost will depend on student performance.</p>	<p>FAA Requirements: To be eligible for a CFI Add-On (Helicopter) a person must:</p> <ol style="list-style-type: none"> (1) Hold either a Commercial Pilot Certificate or Airline Transport Pilot Certificate for Helicopter. (2) Hold any other Category and Class CFI Rating. (3) Pass a FAA written, oral and flight examination. (4) Obtain 15 hours of helicopter instruction. <p>FAA MINIMUM..... 15 HOURS Dual 15 Hours Ground School (Approx 10 hours)</p> <ul style="list-style-type: none"> • FAA Written Exam • Books & Supplies • FAA Examiner Fee • FAA Flight Test <p>Average course completion time: 3 to 5 weeks</p> <p>MINIMUM COST \$7,325* *Minimum cost is based on FAA minimums for flight time. Actual cost will depend on student performance.</p>

COURSE OUTLINES

PRO 500 Professional Pilot Rotorcraft/Helicopter	HII 600 CFI-Instrument Rotorcraft/Helicopter	HII 610 CFI-Instrument Add-On Rotorcraft/Helicopter	EXT 700 External Load Rotorcraft/Helicopter
<p>The Professional Pilot Course is an intensive training course for people who want to become a professional helicopter pilot. This course is highly recommended to get the most for your training dollars. It allows an individual to meet the qualifications for an Instrument Rating, Flight Instructor Rating, and an Instrument Flight Instructor Rating. For little additional cost an External Load Rating can be added.</p> <p>Course includes:</p> <ul style="list-style-type: none"> ✓ 200 Hours flight time 110 Dual (50 hours R-44 Dual) (60 hours R-22 Dual) 90 Hours solo ✓ 70 hours ground school ✓ Private Helicopter ✓ Commercial Helicopter ✓ Instrument Helicopter ✓ Certified Flight Instructor ✓ Certified Instrument Flight Instructor ✓ Books & Supplies ✓ FAA Written Exams ✓ FAA Examiner Fees ✓ FAA Flight Tests <p>Average course completion time: 8 to 12 months</p> <p>MINIMUM COST \$95,850* *Minimum cost is based on 200 flight hours and 70 ground school hours. Actual cost will depend on student performance.</p>	<p>A Certified Flight Instructor for Instrument allows you to teach Instrument to students and better further your career, in addition to staying current on Instrument flying. Being a CFII also makes you more versatile and valuable to any perspective employer.</p> <p>FAA Requirements: To be eligible for a CFI-Instrument (Helicopter) a person must:</p> <ol style="list-style-type: none"> (1) Hold a Commercial/Instrument Helicopter Certificate or Airline Transport Pilot Certificate. (2) Pass a FAA written, oral and flight examination. (3) Hold an CFI Helicopter Rating. (4) Obtain at least 3 hours of helicopter instruction and any necessary as to be proficient to pass the FAA flight examination. <p>FAA MINIMUM... 3 HOURS Dual Approx 10 Hours Ground School (Approx 6 Hours)</p> <ul style="list-style-type: none"> • FAA Written Exam • Books & Supplies • FAA Examiner Fee • FAA Flight Test <p>Average course completion time: 1 to 3 weeks</p> <p>MINIMUM COST \$8,950* *Minimum cost is based on average minimums for flight time. Actual cost will depend on student performance.</p>	<p>FAA Requirements: To be eligible for a CFI-Instrument Add-On (Helicopter) a person must:</p> <ol style="list-style-type: none"> (1) Hold a Commercial/Instrument Helicopter Certificate or Airline Transport Pilot Certificate. (2) Hold an CFI Helicopter Rating. (3) Pass a FAA written, oral and flight examination. (4) Obtain 15 hours of helicopter instruction. <p>FAA MINIMUM..... 15 HOURS Dual 15 Hours Ground School (Approx 10 Hours)</p> <ul style="list-style-type: none"> • FAA Written Exam • Books & Supplies • FAA Examiner Fee • FAA Flight Test <p>Average course completion time: 1 to 3 weeks</p> <p>MINIMUM COST \$12,600* *Minimum cost is based on FAA minimums for flight time. Actual cost will depend on student performance.</p>	<p>J.R. Aviation Requirements: To be eligible for External Load training a person must:</p> <ol style="list-style-type: none"> (1) Hold at least a Private Helicopter Certificate. (2) Logged at least 90 Hours Rotorcraft Helicopter Flight Time. (3) Obtain 15 hours of helicopter external load instruction. <p>FAA MINIMUM....NONE Dual..... Approx 15 Hours Ground School (Approx 10 Hours)</p> <ul style="list-style-type: none"> • Books & Supplies • Ground Handling Crew <p>Average course completion time: 2 to 3 weeks</p> <p>MINIMUM COST \$11,525* *Minimum cost is based on average minimums for flight time. Actual cost will depend on student performance.</p>

Additional Courses

With J.R. Aviation’s experience, we have found that the following courses are easily misquoted due to the pilot’s previous experience. J.R. Aviation has chosen to quote on an individual basis. Please contact J.R. Aviation with your pilot history so that we may properly quote cost, time, etc., and answer any questions you may have.

- ✓ Airline Transport Pilot
- ✓ Flight Reviews
- ✓ Recurrent Training

License Conversion

For information on converting your FAA license, contact the Department of Transportation in the country in which you wish to convert your

license.

ENROLLMENT PROCEDURES

To begin the enrollment process, fill out the Enrollment Application and return it to J.R. Aviation, Inc. Students will be notified upon receipt of their application. For out-of-state students requiring special assistance please be sure to indicate so on your application. If you should have to make any changes, please notify us as soon as possible. If a student fails to notify J.R. Aviation of any changes with special arrangements, J.R. Aviation cannot guarantee reservations, prices, or availability.

Students applying early may wish to start their reading prior to their arrival. A list of books is provided; it is recommended that you call us for assistance in selecting the appropriate books.

PAYMENT

Students may choose from two payment plans:

1. Payment can be made following each flight or ground school session.
2. Students may start an account, and replenish the funds as needed. Discounts are available for pre-payment of flight time.
Payment can be made with: cash, personal check, travelers checks, MasterCard, Visa.

AIRPORT ENVIRONMENT

Clark County Regional Airport (JVY) is the 2nd busiest airport in the state of Indiana. It is an excellent facility with two FBO's, and multiple other specialty operators (helicopter, vintage war bird restoration, propeller, and avionics shops). We have a complete array of instrument approaches to JVY including: ILS, NDB/RNAV, and GPS and we are only 9 miles from a general aviation Class D Airport, and 11 miles from a Class C International Airport (SDF).

GROUND SCHOOL

In preparation for the written tests, along with the oral exam, each instructor will cover the material necessary through a combination of ground school and home study. Students will also be required to take a series of stage tests to assure his/her instructor that the information thus far has been clearly understood. All ground school is taught one-on-one allowing each student to progress at the speed best suited for him/her, and will be scheduled to coincide with the flight training.

EQUIPMENT

J.R. Aviation uses primarily the Robinson R22 for flight training. The Robinson is considered to be "The World's Most Efficient Helicopter", and is used throughout the world for a variety of tasks. This helicopter is a high performance, fast, reliable aircraft, and due to reduced maintenance and operating expenses, it enables J.R. Aviation to keep flight training cost to a minimum.

MEDICAL

Prior to solo flight, students must have a first, second, or third class FAA medical, depending on the pilot certificate to be obtained. Student medicals can be scheduled with a FAA Medical Examiner in close proximity to the school. International students with a medical from another country are required to have a FAA medical for their FAA license.

ENROLLMENT PROCEDURES

ACCOMMODATIONS

J.R. Aviation understands the special arrangements are needed for our out-of-state students, and is prepared to assist you with recommendations for accommodations. A variety of accommodations are available in close proximity to the airport. It is advised to make your request for accommodations known in advance so we can offer you our information about local hotels who extended discounts for our students.

SOUTHERN INDIANA

We are conveniently located in Southern Indiana just north of downtown Louisville, Kentucky. From the affordable cost of living to the moderate climate and rolling terrain this region seems to have something for just about everyone. Some popular sights to see and things to do are:

Kentucky Center for the Arts	Louisville Slugger Museum	Churchill Downs
Holiday World	Kentucky Derby Museum	Fort Knox/The Patton Museum
Horseshoe Riverboat Casino	Semi-Pro Baseball	Louisville Zoo
Falls of the Ohio	Mammoth Cave	Indianapolis Motor Speedway
Kentucky Speedway	French Lick Resort & Casino	Numerous Historical Locations

No matter what your style of entertainment may be, dancing, theater, concert, or a night out on the town, Louisville has it all. Please visit the following websites to learn more about this diverse and growing region: sunnysideoflouisville.org and greaterlouisville.com.
